presents

The Most Economical Solution For Child Registration Software

C.R.A.U.S. © is a graphical user interface (or GUI) -driven software application designed to help users organize and streamline for quick access the information of the children they mentor, oversee, or teach. *It is totally customizable for many uses.*

Uses For Various Applications Include (But Are Not Limited To):

- **Vacation Bible School (VBS)**
- **Children's Church**
- **Child Care Programs**
- **Daycare Programs**
- **Youth Programs**
- **Youth Camps**
- **Youth Group Mentoring Programs, and much more!**

View students' general, medical, family, release, and disciplinary information. Email parents and volunteers, specify suspension parameters, view students by category. Scan (as PDF files), import, and view completed registration and release documents and so much more. *Save time and energy with C.R.A.U.S.!*

Thank you so much for your patronage and support of small business!
